EDX WIRELESS EXPANDS ITS ASIAN PRESENCE

*ParaLink Networks of Taiwan joins
EDX's worldwide distributor network*

Eugene, OR, October 7, 2008 – EDX Wireless is pleased to announce the appointment of a new distributor in Taiwan to their growing list of worldwide representatives. ParaLink Networks, a 16-year veteran company of the telecom industry in Taiwan, is well known for promoting industry-leading wireless products to operators and system integrators. The addition of ParaLink to EDX's growing list of global distributors raises EDX's presence in Asia.

"ParaLink will ably contribute to our worldwide sales and support network, building EDX's presence with carriers within Taiwan and throughout Asia," said Mr. Bob Shaw, vice president of sales and marketing for EDX.

"Following the M-Taiwan project, Taiwan awarded six WiMAX operating licenses in 2007. Those licensed WiMAX operators will start to provide the WiMAX service in 2009," said Mr. Chungli Yu, president and CEO of ParaLink Networks. "EDX Wireless is a global leader in WiMAX and OFDM-based network planning tools. We are pleased to offer the EDX solutions to our customers because it is the right time and right solution for the market."

EDX has also announced that ParaLink Networks has selected EDX SignalPro as their in-house network planning tool.

The distributor agreements authorizes ParaLink to market, sell, and support EDX software products, providing EDX customers with more localized assistance in Asia.

ABOUT EDX Wireless LLC

EDX [network design tools](#) are some of the most widely used engineering software products for designing wireless communications networks, including wireless broadband, [WiMAX](#), [Wi-Fi](#), public safety, and other mobile wireless systems. This mature suite of tools is the result of over 20 years of development effort, including the pioneering of some of the most important innovations in [propagation modeling](#) such as ray-tracing. These highly accurate propagation and planning tools have been used in more than 55 countries worldwide for the successful [design and deployment of wireless networks](#). www.edx.com
